

The Journal of Digital Landscape Architecture is listed in Scopus

Since February 2020, the Journal of Digital Landscape Architecture has been a recognized Scopus title. Scopus is a citation and abstract database for scientific papers which has been operated by Elsevier since 2004. It includes scientific journals with peer review articles and conference papers. The natural sciences, technology, medicine, social sciences and the arts and humanities are represented in the specialist disciplines.

The inclusion of the Journal of Digital Landscape Architecture is an important step towards the recognition of peer-reviewed papers in the field of landscape architecture. At the outset, the Journal of Digital Landscape Architecture introduced a peer review system to subject the papers to a peer review process according to international standards. For the authors, the peer review of the contributions is an important criterion in their publication activities.
